FOUNDER MESSAGE

AYAZ AHMAD KHAN

Central Public School, as an institution of learning has three key responsibilities:

- Towards its students
- Towards the cause of knowledge
- Towards society.

C.P.S. takes serious responsibility towards its students. It is not just an institution of learning but a crucible where their character and values are shaped. As a premier academic institution, role of C.P.S. goes beyond from merely disseminating knowledge to expanding its very boundaries. Finally, every little step, every little action that C.P.S. takes further strengthens the larger goals of the society. It has been an exciting journey from all the passing years till now. And every new day brings with it the promise and the anticipation of discovery, opportunity and fulfillment.

“Always Aim High”

MISSION STATEMENT

REKHA SINGH

Central Public School, Jafarpur, Azamgarh, Uttar Pradesh, as an institution of learning takes its responsibility towards the cause of knowledge in staunch sincerity. It is not just an institution of learning but a crucible where character and values of the students are shaped. As a premier academic institution of the district, the School, endeavors to go beyond merely disseminating education to expanding its very boundaries to knowledge production. It aspires to establish a knowledge based society in the district. The School aims to provide affordable and quality education to all the sections of the society. It looks forward to take advantage of the modern information and communication technologies to accomplish its end.

The vision of Central Public School is to inspire young minds to learn with devotion, act with discipline and to develop one's personality to its full stature imbibing self-confidence and constructive leadership qualities. It aspires to adopt good manners, aesthetic sense and pride in order to serve the society with an inherent sense of social responsibility. The School represents aspiration of the emerging society, which, with the help of education strives to make the world a better place to live in. It also represents aspiration of the society to get modernized intellectually.

It aims to prepare students in such an environment where they can compete in the twenty first century world. The institution inculcates and enhances a sense of belongingness to the society among the students, so that they live in and help develop a better world. It intends to impart such education to the young minds which not only help them to excel in their professional fields but also enable them to emerge as a better human being in order to contribute towards nation building process.

In the next five years, the School shall employ modern technologies in class rooms thereby making teaching-learning process more interactive and communicative. The institution will ensure special emphasis to those students who come from disadvantaged and /or underprivileged sections of the society, thereby providing them equal opportunities to prove their potential. It shall provide finest quality opportunities to each student of the school so that they are not left behind others. It will ensure advancement in learning levels of students in a more holistic environment.

In the coming years, the School is planning to introduce a number of scholarships for students. Such scholarships will be need based and as well as on merit. Special emphasis will be on girls and financially weaker students.

The School takes disciplinary issues very seriously. It will ensure that strict discipline is maintained throughout the campus. Each and every member of the school is expected to abide by the rules and regulations of the school, failing which stern disciplinary action will be taken. In order to implement rules and regulations in letter and

spirit, the School expects cooperation from all the stakeholders of the school including students. Although the School has maintained a very persistent record of good discipline and conduct, it will, in the coming academic session, ensure that the numbers of disciplinary issues are minimized.

In order to ensure and inculcate community feelings among students, the School shall try to preserve the social milieu and celebrate all the major festivals across all the religions and regions. The School will celebrate such festivals from the current academic session itself.

In order to create resourcefulness and variety in the library, the School will be updating its existing collection of books by incorporating additional books on Science, Commerce, Humanities and other inspirational and thought provoking books. In addition to course work requirements, the school shall organize extra-curricular activities like essay competition, awareness drive to various social issues, discussions, etc. to develop overall personality of the students. The institution plans to establish a language laboratory in the coming years to enable the students to speak and communicate in their desired language with accurate pronunciation.

In the coming academic session, the School shall increase its staff room facilities for teaching staff with all the modern facilities. It will ensure that such place is full of all the amenities that are required and helpful in their discharge of teaching duties.

The School intends to increase the already existing sport facilities in the coming years. The School has the required court/ground for Volleyball, Basketball and Badminton. The School has already started working on improving its indoor facilities. It intends to have the infrastructure for Table Tennis, Snooker, Billiards and Pool besides Chess and Carom.

The School strictly follows the curriculum and other important guidelines being prescribed by the Central Board of Secondary Education from time to time. However, the School takes active interest in devising its own methodologies to impart education to its students. In order to make scholastic as well as co-scholastic activities more educative and interesting, the School uses various audio-visual technologies. The entire objective of the School is to provide positive and healthy environment to each student.

The School shall try to maximize its plantation drive rigorously in the coming years so that the School campus be more greener and environment friendly. The School will take various measures to make its students much more aware about the environment and create a sense of responsibility towards not only maintaining it in the School campus but outside as well. The School aims to plant approx 100 saplings every year thereby making a target of planting at least 800 trees by the end of 2022. This endeavor will also help in spreading environmental awareness among the community members.

The school will thus, try to achieve its twin objective of becoming the ground of all round growth and development of the students along with becoming an institution of creating well informed and responsible individuals which would go on to create a knowledgeable and healthy society aiding in progress of our nation as a whole.

Miss Rekha Singh
