FOUNDER MESSAGE

Central Public School as an institution of learning takes its responsibility with staunch sincerity and is serving the society with its noble cause of providing quality education in a modest fee structure.

The school undertakes its responsibility towards its students, parents and society with utmost sincerity. The vision and passion of providing quality education along-with discipline and character makes C.P.S. unique and exceptional. It is not only an institution of learning but also a platform where dreams of students get fulfilled.

The school is providing best infrastructure, quality teaching, extra-curricular activities, better sports facilities, complete security and personalized attention to each student for their all-round development. The school is making its contribution in the nation building by way of investing in the noble cause of education which is shaping the country in the twenty first century world.

With knowledge and education, comes responsibility, and the school is producing responsible citizenry in the country who is not only knowledgeable but responsible as well.

“Always Aim High”

FOUNDER

MISSION STATEMENT

REKHA SINGH

Central Public School, Jafarpur, Azamgarh, Uttar Pradesh, as an institution of learning takes its responsibility towards the cause of knowledge in staunch sincerity. As a premier academic institution of the district, the school endeavors to go beyond merely disseminating education to expanding its very boundaries to knowledge production. It aspires to establish a knowledge based society in the district. The school aims to provide affordable and quality education to all the sections of the society. It looks forward to take advantage of the modern information and communication technologies to accomplish its end.

The vision of Central Public School is to inspire young minds to learn with devotion, act with discipline and to develop one's personality to its full stature imbibing self-confidence and constructive leadership qualities. It aspires to adopt good manners, aesthetic sense and pride in order to serve the society with an inherent sense of social responsibility. The school represents aspiration of the emerging society, which, with the help of education strives to make the world a better place to live in.

It aims to prepare students in such an environment where they can compete in the twenty first century world. The school inculcates and enhances a sense of belongingness among the students, so that they live in and help develop a better world. It intends to impart such education to the young minds which not only help them to excel in their professional lives but also enable them to emerge as a better human being in order to contribute towards nation building process.

In the next five years, the school shall employ modern technologies in class rooms thereby making teaching-learning process more interactive and communicative. The school will ensure special emphasis to those students who come from disadvantaged and /or underprivileged sections of the society, thereby providing them equal opportunities to prove their potential. It shall provide finest quality opportunities to each student of the school so that they are not left behind others. It will ensure advancement in learning levels of students in a more holistic environment.

The school takes disciplinary issues very seriously. It will ensure that strict discipline is maintained throughout the campus. Each and every member of the school is expected to abide by the rules and regulations of the school, failing which stern disciplinary action may be taken. In order to implement rules and regulations in letter and spirit, the school expects cooperation from all the stakeholders of the school including students. Although the school has maintained a very persistent record of good discipline and conduct, it will, in the coming academic session, ensure that the number of disciplinary issues are minimized.

In order to ensure and inculcate community feelings among students, the school shall try to preserve the social milieu and celebrate all the major festivals across all the religions and regions.

In order to create resourcefulness and variety in the library, the school will be updating its existing collection of books by incorporating additional books on Science, Commerce, Humanities and other inspirational and thought provoking books. In addition to course work requirements, the school shall organize extra-curricular activities like essay competition, awareness drive to various social issues, discussions, etc. to develop overall personality of students. The school plans to establish a language laboratory in the coming years to enable the students to speak and communicate in their desired language with accurate pronunciation.

The school intends to increase the already existing sports facilities in the coming years. The school has the required court/ground for Volleyball, Basketball, Kho-Kho and Badminton. The school has already started working on improving its indoor games facilities.

The school strictly follows the curriculum and other important guidelines prescribed by the Central Board of Secondary Education (C.B.S.E.), Delhi from time to time. However, the school takes active interest in devising its own methodologies to impart education to its students. In order to make scholastic as well as co-scholastic activities more educative and interesting, the school uses various audio-visual technologies. The entire objective of the school is to provide positive and healthy environment to each student.

The school shall try to maximize its plantation drive rigorously in the coming years so that the school campus be more greener and environment friendly. The school will take various measures to make its students much more aware about the environment and create a sense of responsibility towards not only maintaining it in the school campus but outside as well. The school aims to plant approximately 200 saplings every year. This endeavor will also help in spreading environmental awareness among the community members.

The school will thus, try to achieve its twin objective of becoming the ground of all round growth and development of students along with becoming an institution for creating well informed and responsible individuals which would go on to create a knowledgeable and healthy society aiding in progress of our nation as a whole.
